## EXPERIENCE

### DSB Edutech pvt ltd.

PHP developer intern  
21/05/2019 - 30/06/2019

I was involved in the backend of the product in which i have to analyse the Mysql database and create relations among them and further finding the desired data. I also used ajax and jquery for asynchronus calls from database.

### Bitsphere Infosystem Pvt. ltd.

Web developer  
01/02/2019 - 01/03/2019

I have to create a website for the client in the company in which i handled the UI along with the backend of the website and installed wordpress for the client to use it as CMS and make a dashboard for the admin for detailed user interaction on the webpage.

### Springfield Olympiad Pvt. Ltd

Full stack developer  
01/12/2018 - 01/02/2019

Improved UI of website along with setting up the database.

## PROJECTS

### Dues Management System

1 month

The project is created to meet the needs of students and shop owners to maintain a proper record for the transactions made by students in colleges or any premises. It helps in easy management of dues, saves times and money as well. The product is built with PHP framework Yii along with Mysql database. Yii framework is choosed for its high security features.

### IIIT UNA Official Website

1 month

Created a website for college in BOOTSTRAP framework with integrated Google maps API along with Google's custom Search API.

## ACTIVITIES
